

Angels Care Wirral Ltd

I wanted to write to you to say how pleased I am with the care being given to my mother by Debbie Stanhope and her team from 'Angels Care Wirral Ltd'.

You may recall leaving their brochure with my mother, Alice Oakes, on Ward 23 after I had had a very difficult time trying to organise care for her prior to discharge. You said that you personally had not had experience of this company but other colleagues had.

I have found all the team friendly and professional, and they treat my mother with kindness and respect. They have been entirely reliable, there is always 'feedback' and they keep a record of the care that they have given.

As you can imagine it could be difficult to have carers visiting all through the day and staying overnight, but I have never felt they were intrusive - just quietly cheerful.

I cannot speak too highly of them, and I wanted to say that you should have no qualms about recommending them to other families.

Thank you very much.

Best wishes,

Yours sincerely,

Jenny Docherty
